

The Precipice Workshop

This is a workshop of deep transformation. It is a sacred space where participants are invited to embrace trust, courage, and the light within. Together, we will support one another in approaching the edge of the unknown, stepping beyond illusions to reclaim our authenticity.

We begin with divination cards and a guided meditation that journeys back to the soul's intention for this life. This process reconnects us to the deeper current of our desire: to live with purpose, to evolve, and to expand.

With the support of Astrology and channelled wisdom from Duncan and Sasch, two of Dee's spiritual guides, we will gain meaningful insight into the soul's chosen direction.

As this understanding deepens, we will gently uncover the fears, beliefs, and conditioned patterns that cloud our way forward. Through therapeutic and representational processes, we will endeavour to work through these outdated aspects of self, bringing them to the surface of our consciousness. By doing this, change will be possible.

Our journey culminates in a shared ritual, a symbolic release of all that no longer serves. Each participant will be invited to stand at their own inner precipice. In doing so, they will reveal their radiance, their voice, and their truth.

This is a powerful and potentially life-altering experience. It requires honesty, heart, and a willingness to be seen.

Dee and Paul are honoured to co-facilitate this sacred process. Paul is a seasoned Past Life Therapist and Life Between Lives Practitioner, deeply skilled in trauma release and guiding transformational group work. Dee is a gifted channel and Evolutionary Astrologer who brings soul-depth and clarity to the space.

We welcome you to join us for this powerful rite of becoming.
